

Royree, stand up. Let's prophesy over Australia. ... Let me prophesy what I just saw. I turned around and I saw her there and I thought, 'Let us just let her take this word back to Australia with her.' She will represent Australia. ...

Now this is what I saw when I saw Australia in 2008. I saw fire sweeping Australia. I saw floods sweeping Australia. And the Lord said, 'This will be my land that is tested, but I say in the next three years the testing will subside and the Glory will begin to invade. I say to this land, you will be a land of Glory invasion. And I say to you, not only will you be a land that the Glory invades, but you will be a land that stands. I say to you where other lands have not stood you will now stand for My righteousness. This will cause an upheaval in the nations of the earth, for I say to you, you will be surprised who comes to stand with you. There will be three nations in Europe that stand with you. There will be three that reject you publicly, but I say to you, you will stand and stand firm. And I say you will be known, just as Israel is in covenant, you will be known that you are Israel's champion. So I say to you - get ready, for Glory invasion is on the way.'
